

Data Sheet

TriZetto® QNXT™ eXtended Integration™ (QXI)

Enabling digital transformation and IT integration at scale.

Web services that facilitate rapid, flexible integration of multiple information technology applications

The QXI software and QNXT platform are part of the Cognizant line of TriZetto® Healthcare Products—a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

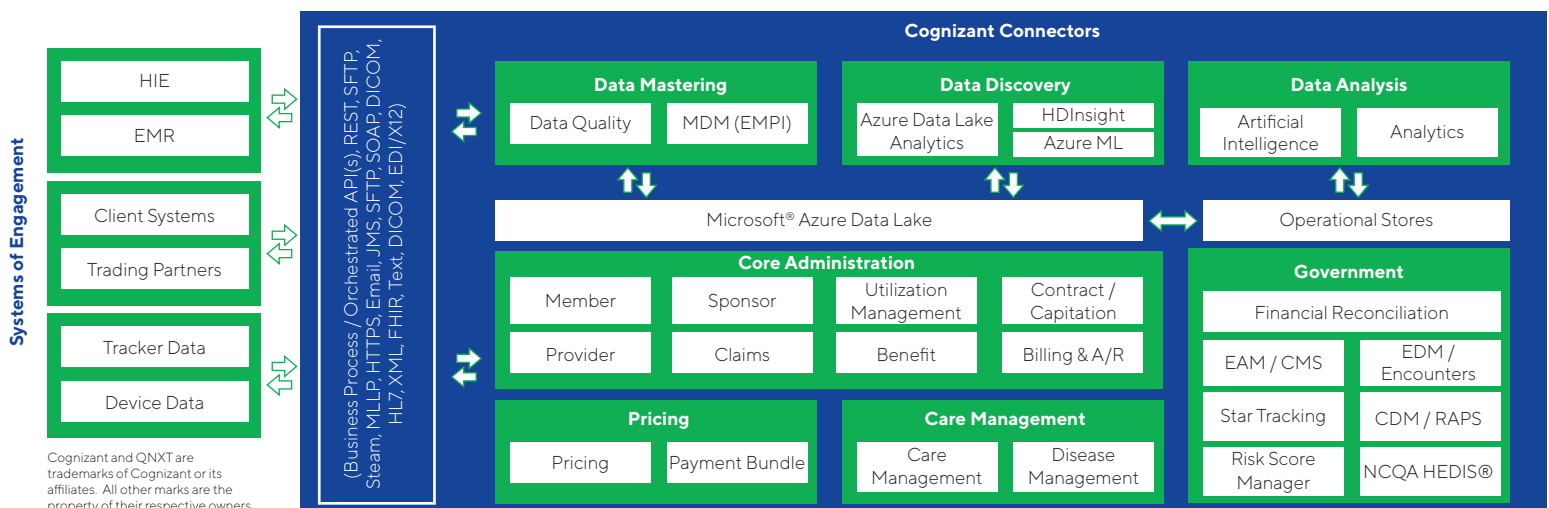

Web services that facilitate rapid, flexible integration of multiple information technology applications

The QXI software and QNXT platform are part of the Cognizant line of TriZetto® Healthcare Products—a portfolio of software products that

TriZetto® QNXT eXtended Integration™ helps health plans:

- Create rich and seamless integrations with web and mobile apps and/or third-party applications
- Deliver real-time access to data for constituents
- Accelerate system implementation and speed to market
- Increase value by connecting, routing and transforming stored or shared data
- Simplify the enterprise architecture and computing model

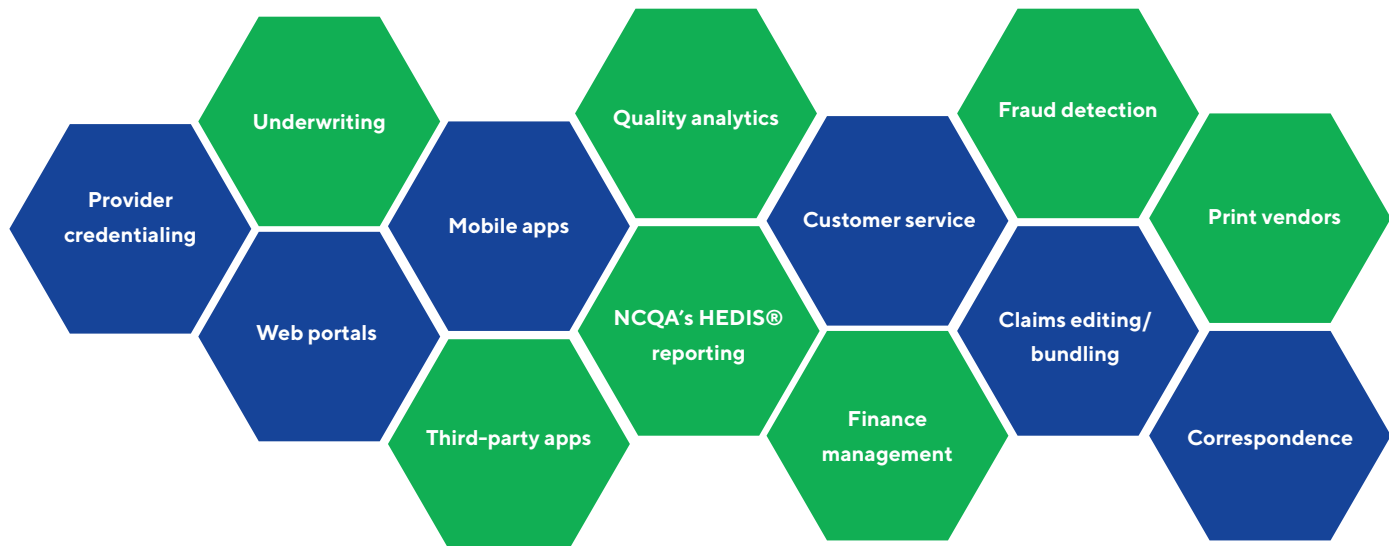

help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

QXI software leverages service-oriented architecture that is independently scalable to meet your organization's integration needs and support high availability of new features. This enables users to quickly and easily access, search and update information stored within the QNXT platform, and then deliver that data to other business applications. In addition, QXI software orchestrates some services and will expand over time as additional documentation is added that allows clients to orchestrate complex business processes.

Integrate any application with QNXT using QXI:

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

Modern health plans have a heterogeneous ecosystem to satisfy varying data needs, not only for system(s) integration(s), but to also feed complex business analytics, fraud detection and health information exchange needs. Designed to streamline and improve the integration process, this saves payers time, money and resources helping them take full advantage of their data and QNXT functions.

QXI comprises 13 services and more than 300 underlying operations within QNXT that retrieve and update respective information in QNXT:

- Benefit Plan Service
- Case Management Service
- Claim Service
- Contract Service
- Finance Service
- Member Service
- Process Log Service
- Provider Service
- Real-time HIPAA Transactions Service
- Referral Service
- Sponsor Service

With QXI software, financial, member, provider and employer information stored within the QNXT core platform is easily retrieved to compliment QNXT with a host of third-party applications that help drive payers' digitization and modernization goals.

- Utility Service
- Utilization Management Service
- Actions Service
- Referral Service
- Sponsor Service
- Utility Service

Reach your objectives faster

In addition to QXI software, we offer an extensive line of solutions and services that harness the power of digital to optimize your business. Achieve new levels of performance and efficiency with Digital Business, Digital Operations and Digital Systems and Technology capabilities from Cognizant.
