TriZetto® Facets® Open Access Solution

Empower digital operations for simplified integrations, automation and real-time processing via extending core capabilities using APIs and Data Publishing Interfaces

To succeed in today's consumercentric healthcare marketplace, your business may need to integrate with external systems to share and manage data to and from your TriZetto® Facets® core administrative solution.

Leverage Facets data and logic.

The Facets Open Access Solution simplifies access to and integration with Facets. Using near real-time web services and data publishing interfaces, the solution helps you leverage, manage and share Facets data with external systems. There is an extensive base offering of web services, with additional premium business value services available to support specific business requirements.

Business Process Automations:

- Increase administrative efficiency
- Expands real-time integration and automation options for internal and external systems
- Improve data quality and access to data help reduce customer service calls, provides transparency and drive consumer satisfaction
- Exposes Facets data and processing capabilities in real-time
- Optimize data extracts and reporting capabilities

The Facets Open Access Solution is part of the Cognizant line of TriZetto Healthcare Products— a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

The Facets Open Access Solution includes:**A library of web services with rich functionality**

(base offering) – over 300 service APIs that expose data and functionality across the Facets solution.

Business Value Bundles (Premium Offerings) focused on specific business processes automation:

I Facets® Real-Time Claim Processing Services

A comprehensive claim processing solution via web services to build real-time automations for medical, hospital and dental claims processing.

I Facets® Product and Benefit Services

A suite of ReST APIs enable automation to build and manage products and benefits as well as retrieve member's benefits and level of usage in real-time.

I Facets® Accumulator Synchronization

A comprehensive solution allows to keep accumulators in sync with your vendors in real-time.

I Facets® Data Publishing

A data streaming platform publishes Facets entity data in all known states when added, changed or deleted. Allows flexibility to automate processes, integrate with internal data warehouses for reporting and analytics or external vendor systems for continuous data sync. Currently support entities such as Claims, Member, Group and Provider.

Rapid business response and improved productivity

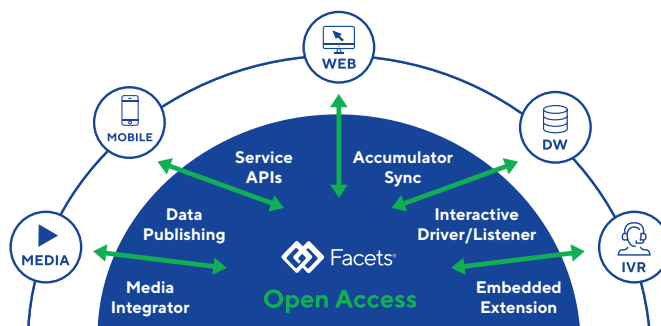

The Facets Open Access Solution allows your IT organization to become more agile in an increasingly competitive market—saving time and money as fewer resources are required to build, test, maintain and manage Facets integration points.

Comprehensive Core Administration Services

In addition to the TriZetto Facets Open Access Solution, we offer an extensive line of solutions and services that harness the power of digital to optimize your business. Achieve new levels of performance and efficiency with Digital Business, Digital Operations, and Digital Systems and Technology capabilities from Cognizant.

Facets Open Access Solution:

An open, flexible, and extensible platform for digital automations.

Facets Open Access will keep expanding by adding more options and flexibility to support current and future market needs for automations and real-time integrations.
