Cognizant

TriZetto® QicLink Enterprise™

Solutions for Healthcare Data Analysis, Communication and Reporting - Health Data Analytics

Data. It needs to be understandable, comprehensive and accessible in order to realize the promise of its value. Health Data Analytics delivers.

This integrated solution allows you to utilize health claims data to help employers, employees and brokers identify and manage plan risk.

Health Data Analytics is available exclusively to TriZetto® QicLink Enterprise™ application clients from Benefit Informatics, a valued partner in the TriZetto QicLink Premier Partnership Program. QicLink™ is part of the Cognizant line of TriZetto Healthcare Products—a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

This QicLink-integrated data analytics solution delivers:

▎ Efficient analysis tools that identify areas of utilization, trending and risk

▎ Secure access to ad-hoc and standard reports that can benchmark plan performance, identify major claim exposure and provide current stop-loss status

The Health Data Analytics Solution

Health Data Analytics supports data analysis and reporting, connectivity, interaction with constituents, and secure, single sign-on access to a variety of web-based tools.

▎ Secure single sign-on access to QicLink Benefits Exchange that connects employees and plan members to information on:

   ▎ Claim and benefit transactions

   ▎ Benefit/wellness initiatives available through other Premier Partners

   ▎ Plan documents

Health Data Analytics from Benefit Informatics encompasses three program components:

▎ Data analysis and reporting

▎ Connect

▎ Desktop

Data Analysis and Reporting

Populate standard, ad hoc and in-depth reporting tools with QicLink data—providing data transparency for employers and stop-loss carriers, as well as in-depth analytical views to support risk management initiatives.

▎ Standard and ad-hoc analysis and reporting

▎ Health benefits utilization and trend analyses

- Plan performance benchmarking
- Payee, payment, diagnosis and procedure analysis
- Shock claim detail and stop-loss trigger alerts
- Full disclosure re-insurance reporting

Connect

Integration with QicLink and QicLink Benefits Exchange allows you to disseminate monthly reports via the web.

- Allow customers to access files in a secure environment
- Automate distribution of month-end reports
- Provide immediate internet posting/access for reports and documents
- Utilize numerous file formats – including Excel, Word, PDF and others

Desktop

Support online-based employee and member communications strategies via single sign-on access to a secure web site. Integration with the QicLink Benefits Exchange, e-business solution also allows connection to risk management tools from other TriZetto Premier Partners—with the ability to label and customize the application for your employer groups.

- Provide easy access to benefit/wellness communications and related administrative tasks
- Deliver secure online applications that allow employees to monitor claim status, accumulator levels and other transactions

- Incorporate hyperlinks to external sites
- Upload plan documents and other key information
- Manage and customize homepage content through a simple interface
- Reduce inbound customer service calls with online service requests
- Incorporate third-party wellness content and solution providers

Utilize the Health Data Analytics solution offered through Benefit Informatics and the TriZetto QicLink Premier Partnership Program to give your employers, providers and members secure online access to the tools and information they need to manage the cost and quality of care.

Reach Your Objectives Faster
